

Lawn and Landscape Supervisor

Position Overview: This is a full-time opportunity with a benefits package.

Join West Michigan's largest landscape management company as a lawn or landscape supervisor. Supervisors play an essential role on our team through coordinating and overseeing the execution of a wide variety of landscape related tasks and projects. Each of our supervisors is aligned with 3-7 production crews to provide landscape management services to our clients. Successful supervisors earn the opportunity to move into operations manager or account manager positions. The demand for quality landscaping services continues to grow as more and more companies realize both the visual and intrinsic value we add to their properties. You will be leading a team of individuals like yourself, supported by a manager in your department. In addition to leadership responsibilities, this is a hands-on position which allows you to take full ownership in accomplishing the enhancements in the field! If you're wondering what we do during the winter months, we stay busy by executing snow operations, and continual planning and training for the upcoming season.

You can build your future right here! DJ's has boasted healthy company growth for more than a decade. This has led to excellent opportunities for motivated team members to grow their careers and improve their quality of life. DJ's seeks individuals with a professional demeanor who will strive to be a leader in our industry, and who are ready to grow their careers among other professionals in a dynamic company. Apply today for a chance to become a part of this growing and motivated team.

Responsibilities include:

- ◆ Team member development
- ◆ Planning crew routes
